## LABOR VERSUS CAPITAL.

## THE FIGHTS IN VARIOUS PARTS OF THE COUNTRY CONTINUE.

Trouble Threatened at Braddock, Pennsylvania—Carnegie's Proposition—Chicago Painters Will Continue the Strike. "The Special Call."—Labor Notes.

PITTSBURG, April 28.—There are prospects of trouble at Braddock. The report that 200 men would arrive from the Lochiel works, at Harrisburg, created intense excitement among the strikers, and an outbreak is feared if the company attempts to import new men. The report was denied by Superintendent Jones that the feeling is still very high.

Last night as a party of eight workmen were on their way home they were greeted along the route with cries of "black sheep" and "scab," but there was no violence. This was the nearest approach to a breach of the peace that has occurred since the inauguration of the strike. This morning Sheriff McCandless is at Braddock in conference with the leaders of the Knights of Labor.

"The Special Call." PHILADELPHIA, April 28.—In the Journal of United Labor Mr. Powderly, speaking on "The Special Call," says:

"The rich need education, the middle class need it and the poor require it, so that all may know that this nation was not built up by any one class; that it is not depending on one class, and that it will not be ruled by a class. The people must be taught what their political rights are; they must be taught that hoodlums and bribees are traitors; they must be taught to watch the politician after his election as well as before it; they must be taught that the lands of the nation belong to the people of the nation, and not to thieves who were smart enough to steal them; they must be taught that the rule of the corporation should come beneath the rule of the people."

Carnegie's Proposition Refused. PITTSBURG, April 28.—A member of the firm of Carnegie, Phipps & Company, said yesterday: "Mr. Carnegie, as a shrewd business man, has been carefully scanning the outlook for the future, and he has come to the conclusion that, inside of two years, wages will be down to \$1 per day for laborers; but in the face of this, he is willing to make a contract with his men for three years, in which he offers them 20 per cent. more than they can hope to receive elsewhere, but the offer is refused. This explains Mr. Carnegie's position thoroughly."

The Burlington Men to Get Positions. CHICAGO, April 28.—There is a probability that a number of the striking Burlington engineers will be given positions on the Atchison, Topeka & Santa Fe extension in Chicago. Chairman Hoge is authority for a statement that the Santa Fe officials have promised to employ twenty-five crews within the next two weeks. In no case has there been any disposition shown to blacklist the striking engineers, but the switchmen have not been so fortunate. Several of the switchmen have been told that "there was no place vacant, and never would be."

## Chicago Painters.

CHICAGO, April 28.—The striking painters held a special meeting and decided by a slim majority to continue the strike. It is said that the treasury is depleted and that those who have succeeded in obtaining work are refusing to pay in their assessments. A number of men declared at the meeting that they would apply for work at once. Another attempt to secure an interview with the master painters will be made by a committee appointed for that purpose.

## Agreed to the Union Rate.

PHILADELPHIA, April 28.—James Gillinder & Sons, glass firm, has agreed to pay the union rate of wages to its employees, but claims the right to employ non-union men if it should so desire. This privilege the American Flint Glassworkers' union refused to concede, and the dispute between the firm and its men is still unsettled. Another meeting will most likely be held shortly to adjust the matter.

## Secret Circular Denounced.

PHILADELPHIA, April 28.—A secret provisional committee of the Knights of Labor, recently organized in New York city, has issued a circular containing charges against the present officials. When shown the circular General Secretary Litchman pronounced every word in it a malicious falsehood. "These are the people," said the secretary, "who are endeavoring to cause dissensions in the order."

## The Boycott Spreading.

CINCINNATI, April 28.—The striking brewers are greatly encouraged at the success of their boycott on pool beer. Many labor organizations have passed resolutions declaring a boycott on all the beer manufactured in the three cities. Here are the resolutions passed Thursday night by one of the largest Knights of Labor assemblies in District No. 43.

## One Self with Two Heads.

MARION, O., April 28.—Jacob Seiter, living near Owens, this county, is the possessor of a peculiar calf, which was born a few days ago, and is a lively specimen with two heads. It is built like an ordinary calf with the main head the usual size, but on the right of the right eye is the lesser head, about half the size of the other one, and perfectly formed with the exception of ears, but has four eyes, however, with the extra nose and mouth, but only uses the double powers in seeing. It is inclined to play, and is a bright specimen of a freak.

## A Young Cleveland Hotel Thief.

CLEVELAND, O., April 28.—A dime novel reading elevator boy, of this city, with the appropriate name of Johnnie Heaverin, was arrested for abstracting money from guests at the hotel, and was found to have kept a diary reading like this: "\$9 stolen from room 20; shirt stolen from room 123, cigars; \$1.68 stolen from room 800, shirts, socks; one tie stolen from room 101, buttons; one brush stolen from room 106. Amount, \$100.60. Curse and swear every day. Entered rooms and slept six times."

## THE SULTANA DISASTER.

## The Survivors of the Terrible Catastrophe Celebrate Its Anniversary.

CHICAGO, April 28.—Down in a well ordered saloon on the south side a tall, solidly appearing man is to-day, with his friends, celebrating the anniversary of the Sultan disaster. His name is Edward S.

THE SULTANA DISASTER.

Hedrick, for fifteen years a member of the Chicago police force. It is just twenty-three years to-day since the ill-fated vessel, with its 2,000 prisoners and 100 or so of passengers, was blown up in the Mississippi river, and of the survivors of that terrible catastrophe less than a dozen are still on earth to commemorate its anniversary. Of these Mr. Hedrick is the only one in Chicago.

Four more will meet to-day at Hillsdale, Mich., and another, James Payne, will commemorate the event on his farm near Frankfort, Ind. The gathering at Hillsdale is of the National Sultana Survivors' association, which includes the families of the survivors.

## A DAY OF HANGINGS.

## Seven Executions Take Place at Fort Smith, Arkansas—One in Maryland.

FORT SMITH, Ark., April 28.—Seven executions took place under sentences passed by Judge Parker, of the United States district court, on February 9.

The traps were sprung shortly after noon. The victims are:

Owen D. Hill, a negro, for the murder of his wife on July 1, 1887.

Jacob Crow, negro, for the murder of Charles B. Wilson, a Choctaw, in the Choctaw nation, in 1885.

George Moss, for the murder of George Taft, in Red River county, Choctaw nation, in September, 1887.

Jeff Hildebrand, Cherokee, for the murder of John Ridgeway, near Coffeyville, Cherokee nation, in May, 1885.

William Alexander, negro, for committing assault upon his stepdaughter, Elja Whitfield, in the Choctaw nation.

Emmanuel Peterson, negro, for the murder of Deputy Marshal Willard B. Ayres, who was trying him in the Choctaw nation in 1881.

Richard Sutherland, white, for the murder of his sister, Jake Burrows, in September, 1885.

## A Sailor Hanged.

LEONARDTOWN, Md., April 28.—John B. Biscoe, the colored man, who murdered Capt. R. P. Dixon, in 1886, was hanged here. The execution was private.

Biscoe made a confession on February 20, last, but it was not made public until now. In it, after detailing several acts of cruelty and persecution on the part of the captain, he said he killed the captain in self-defense and not with any intention of robbery.

Biscoe joined the Catholic church before he died.

## Double Suicide.

PHILADELPHIA, April 28.—A most singular double suicide which is wrapped in the most profound mystery was discovered by the police in a small three-story building fronting on a narrow court running eastward from Second street below Girard avenue. The occupants of the house, Ernest Eichfeld, a tailor, sixty years old, and his wife, fifty-five years old, have not been seen since Monday last. The officers were not notified, and entering the house, found the body of the woman suspended to the door of the room in the second story, and the body of the man hanging to the door of a closet in the third story. Both bodies were suspended by pieces of clothes line, and from the similarity of the knots it is believed that both were tied by the same person and that the act was deliberately planned and carried out. No clue to the cause of the crime has yet been found.

## A Postmaster Egged Out of Town.

CHICAGO, April 28.—A Times special from Fargo, Dak., says: Postmaster W. G. Judd, met with a rotten egg reception at Mapleton Wednesday Mr. Judd, who is a son of the Chicago postmaster, used to be in business at Mapleton, and when he sold out there he promised the man to whom he sold, it is alleged, that he would secure the postoffice for him. The man whom he recommended got the office. His action, however, was very displeasing to the citizens of the place with whom the new postmaster was not on good terms. Wednesday afternoon Mr. Judd went down to Mapleton on business and was rotten egged out of town.

## No Yellow Fever There.

JACKSONVILLE, Fla., April 28.—The following, signed by ten practicing physicians, has been received from Barlow, one of the places where yellow fever is alleged to exist, according to Surgeon General Hamilton's report: "We, the undersigned, embracing every practicing physician in this place, hereby certify that there is not now, nor has there ever been, within our knowledge or information, a single case of yellow fever within the town, nor within Polk county, of which Barlow is the county seat."

## Pilot Boat Sunk.

NEW YORK, April 28.—Pilot boat Joseph F. Loubat No. 16, while lying at anchor off Sandy Hook yesterday afternoon was run into and sunk by the steamer Santiago, outward bound. There were four pilots and a crew of seven men on board the Loubat at the time. They were all saved. The Santiago appeared to refuse to answer to her helm. Those on board the Loubat seen that the collision was inevitable in time to save their effects and the boat's nautical instruments. The Santiago's prow struck the pilot boat on the port quarter cutting her below the water line, and she sank in less than half an hour. The Loubat's men were picked up by the Santiago and transferred to a tug, which landed them at Stapleton. The Loubat was valued at \$10,000.

## QUEEN VICTORIA'S VISIT

## TO BERLIN MORE OF A SUCCESS THAN WAS EXPECTED.

Lord Salisbury Relieved—The English Cabinet Feared the Result—Russia's Object in Causing Revolts in Roumania—A French Riot—Notes From Abroad.

LONDON, April 28.—The visit of Queen Victoria to Berlin has proved to be a success after all, far greater than was expected, and Lord Salisbury has undoubtedly breathed a sigh of relief. What with the perplexing details of government upon him, the blunders of the party in parliament and fear for the results of the royal visit to Germany's capital, where it was supposed a cordial hatred for the English and especially for the English queen existed, the honors of premiership rest on the incumbent of that office with the proverbial uneasiness of the monarch's crown.

The greatest apprehension was felt by the cabinet over the queen's visit. They feared lest the Battenberg incident might be reopened, by what they considered the queen's inopportune appearance in Berlin, and that results would follow of which official notice must be taken. But thanks to the loyalty of Berliners, and to the diplomacy of Prince Bismarck, nothing happened to mar the royal visit. If the German people were not even demonstrative towards England's queen, they were at least respectful and entirely proper. The press had been coached by the chancellor before the queen left Florence, and the people took their tone from their courteous though unenthusiastic greetings.

Besides this, Bismarck himself set the example by his friendly bearing and urbanity. The English journals contain magnified accounts of the queen's interview with Bismarck, which is very likely to be overestimated. The meeting was only a friendly interchange of courtesies, and it is said that conversation between the queen and the chancellor was confined mainly to the condition of Emperor Frederick and the provisions made for the empress at his death.

## The Object of the Roumanian Revolts.

BUCHAREST, April 28.—The light cavalry has succeeded in reducing the peasants in the disturbed districts to submission.

It is not likely to be the last we shall hear of disturbances in Roumania, since the Russian minister, Hitrovo, with a large force of agents, is located at Bucharest for no other purpose than to create them. Russia, by agitation and intrigue, continues to maintain a pro-Russian faction in the country. It joins with the opposition against the government, which under the authority of King Charles inclines to Austria. By organizing revolution Russia hopes to convince King Charles that he cannot maintain a peaceful authority in Roumania except by becoming the czar's ally in his pan-Slavic designs.

It was the domestic policy of the late Minister Bratianu, who resorted to seemingly unjustifiable means at the last election to secure a Conservative majority in the chamber, of which complaint is made. This was first rendered a necessity by the activity of the Russian agitators and next used by them to stir up revolt. Hitrovo does not attempt to cover up his operations, but openly encourages Anarchy with the promise that Russia will sustain the revolutionists.

King Charles dare not send Hitrovo home to Russia, for it would be soon magnified into a caucus belli. The effort Russia is making to force Roumania into an unwilling alliance is undoubted evidence of a contemplated advance of her armies into Bulgaria. She does not want Roumania as a belligerent in her path. For an indefinite period now Russia may be expected to devote herself to the organization of revolts in Roumelia and Bulgaria.

## Gillig's Troubles.

LONDON, April 28.—Proceedings will be taken in court to determine if the lease of the American exchange building and subsequent improvements can be included in the assets of the bankrupt concern.

Henry F. Gillig took out a lease in his own name and not in the name of the company. The lease was for nineteen years, only one year of which was expired. Four thousand pounds was paid for the lease. Some money was expended in improvements. Gillig claims he can hold this property.

## The Boulanger Plans.

PARIS, April 28.—A dispatch from Nancy says a riot broke out there Thursday evening, a mob of Boulangerists attacking the students' club with stones and other missiles. The disturbance continued to a late hour. A number of policemen were injured. Several of the rioters were arrested. The crowd finally dispersed and the town is now quiet.

At a meeting of the Patriotic league the group of action approved the proposal that the league should assist the movement for the revision of the constitution. A reorganization committee was appointed, with M. Paul Deroudele as president.

Against the advice of Duc d'Anmale and Duc d'Broglie the Royalists have decided to support the revision movement. The reason is apparent, for, without them, Boulanger would have no considerable following in the chamber and the excitement would die out.

## Urges Calmness and Patience.

DUBLIN, April 28.—The Freeman's Journal commenting on the royal decree urges the people to calmness and patience, and receive it with profound respect and loyalty to Rome. The paper declares that boycotting is rarely resorted to.

## Almost Home.

LONDON, April 28.—Queen Victoria arrived at Flushing, Holland, at 8 o'clock, and embarked on the royal yacht for England.

## Sentenced to Die.

ST. JOSEPH, Mo., April 28.—Louis Bulling recently convicted of wife murder, has been sentenced to be hanged Friday, June 15. The case will be taken to the supreme court.

## KILRAIN ACCEPTS.

## He Will Fight Sullivan for \$10,000 and the Championship of the World.

NEW YORK, April 28.—The following cable was received by Richard K. Fox from George Atkinson, editor of the Sporting Life, London, on behalf of Jake Kilrain:

"LONDON, April 27, 'Richard K. Fox: 'Kilrain will arrange a match with Sullivan to fight according to London prize ring rules for \$10,000, the Police Gazette diamond belt and the championship of the world. Kilrain states in reply to the challenge issued by John L. Sullivan to fight Mitchell or him, Kilrain, for \$10,000 a side and the championship of the world, to take place either in England, France or America: If the battle is to be decided in America it must be decided west of the Missouri river six months from signing articles. Kilrain's engagements here will not permit him to fight sooner.'"

KILRAIN.

either in England, France or America: If the battle is to be decided in America it must be decided west of the Missouri river six months from signing articles. Kilrain's engagements here will not permit him to fight sooner."

## JOHN L. ON SHIPBOARD.

He Insults Ladies and Raises Hades Generally—He is Interviewed.

BOSTON, April 28.—Sullivan's career on board the steamer Catalonia coming over was about as inglorious as his fight with Mitchell. He was on a spree nearly all the way over, insulted ladies, beat Annie Livingston, the woman traveling with him as his wife, and fought the employees of the steamer. The captain threatened to put him in irons and was only dissuaded by Sullivan's friends. Rev. R. W. Manley, a passenger, claims he cursed his children, and threatened to "swipe the brats out of existence." His brutality nearly prostrated Mrs. Manley.

The steward broke a soda siphon over Sullivan's head, which so pleased Sullivan that he invited him to take a drink. The engineer threatened to scald the champion unless he stayed out of the engine room. He braced up sufficiently before the arrival to meet his friends.

Sullivan was found by a reporter last night. He was asked for a statement in reply to the stories. He said:

"There is no truth in them except that I did a little gyping, but nothing more. You know if I ever drink a glass of beer, the story goes everywhere that Sullivan is drunk. I did have a little fun with that clergyman or missionary. You see, he undertook to talk religion to me. I said to him: 'What's the difference between heaven and hell, anyhow?' 'Why, Mr. Sullivan,' he said, 'don't you know the difference between heaven and hell, don't you read the scriptures?' 'Scriptures be damned,' I said, 'what do I want to read the scriptures for? I am not a clergyman, I'm a fighter.'"

"He soon gave me up as a hopeless case. If any one says I did anything worse on the steamer than I had a little fun by such gyping, I'll make them prove it. After Joe Lannon's benefit next Thursday, I'm going away for fifteen days where no newspaper man can find me. I shall keep out of sight until my testimonial. There is no truth whatever in the published reports that my wife in Rhode Island has served any legal process or paper of any description on me since my return."

## HORRIBLE FATE.

An Indiana Farmer Falls Into a Brush

Fire and is Roasted Alive.

BLOOMINGTON, Ind., April 28.—A horrible accident is reported from the southern part of this county. Burl Beves, seventy, one of the oldest and best known citizens there, while burning brush, accidentally fell face down in the fire, and being fleshy, was unable to move himself. It is supposed that he suffocated from the heat. When found the flames were leaping from his body and head. Part of the trunk was burned off.

## Want Him Removed.

KANSAS CITY, Mo., April 28.—The state convention of homeopaths Wednesday passed a resolution requesting Governor Moorehouse to remove from the state board of health Dr. George M. Cox, of Springfield, Mo., who achieved some notoriety some time ago by attacking a woman in a hack and throwing vitriol in her face.

THE City Council of Mt. Sterling has ordered that persons loitering around railroad depot and waiting rooms be fined from \$3 to \$10.—Exchange.

Wouldn't it be a good idea for the Maysville council to follow suit? Complaint is often heard at the crowd of loafers and loiterers about the K. C. depot.

THE City Board of Equalization is going to find out why some real estate is assessed at about one-third, one-fourth and one-fifth of its actual value. That's right. Every property-holder ought to bear his just proportion of taxation. It is not fair to shirk and shift the burden to others.

READ THIS.—H. Ayers Jackson has invented and patented a new scientific and certain method for cutting garments for either ladies or gentlemen, to fit the form.

The human bust is a truncated cone, each one varying in its peculiar outline, with a series of constant changes, no two measuring exactly alike. Hence to make a perfectly fitting garment, it must be made to conform to the outline of the form whatever that may be. This can not be done by a chart, nor can it be done by guess. The sensible, scientific way is to take an accurate measurement of the form, plot the measurement on paper, cut it out and reduce it to outline on the cloth straight on the goods which can then be cut, allowing for seams. This system is based upon practical, scientific principles, and when measures are carefully taken the garment can be cut and made to fit exactly without trying it on. This system is equally exact and certain in fitting sleeves.

Miss Sue Berry is the authorized agent for this, the Franko-Prussian, system for measuring, cutting and teaching to measure and cut garments for either ladies or gentlemen, and she refers to Mrs. Judge Phister, Mrs. Judd, Mrs. T. J. Pickett, Mrs. Robert Ficklin, Mrs. Wm. Smoot, Mrs. Scudder, of Elizaville, Mrs. F. B. Ranson and others for whom she has cut garments by this system. For further information apply to her.

### PURIFY YOUR BLOOD.

Impurities in the blood produce diseases. Bodily and mental health depend upon a healthy condition of the blood. The blood, particularly in the spring and during the hot summer months, becomes clogged with impurities, which poison it and generate disease. A harmless blood purifier, without a particle of mineral poison in it, such as mercury or potash, is necessary to remove these impurities and to restore the healthy tone of mind and body. The best purifier and tonic known to the world is Swift's Specific (S.S.S.). In regard to its wonderful purifying and tonic powers we give a few testimonials as follows:

Mr. Wm. A. Siebold, with Geo. P. Rowell & Co., 10 Spruce Street, New York, writes March 29th, 1888: "I feel it my duty, for the benefit of others who may be afflicted as I was, to write you this letter, which you can use as my testimony in any way you choose. I will answer any inquiry from others in relation to the facts herewith stated. In February last I suffered great pain and inconvenience from boils, all over my neck; I could not turn my head without pain and my blood was in poor condition. After trying all the usual remedies in such cases, and finding no relief, by the persuasion of Mr. J. W. Pears, Manager of your New York Office, I used one bottle S. S. S., and I improved rapidly and very soon I was entirely relieved of my 'Job's Comforters.' Now not a sign of my affliction can be seen. I feel strong and cheerful. S. S. S. is a fine tonic as proved in my case. I sleep soundly and my appetite is good. Dr. J. N. Cheney, a well-known physician writes from Ellaville, Georgia: 'I use S. S. S. in convalescent fever cases with the best results. It will, in my judgment, prevent summer dysentery, if one will take a few bottles in the spring, thus preparing the bowels for the strains of summer.'"

Mrs. Scott Liston, 116 Zane street (Island), Wheeling, West Virginia, writes: 'Having used S. S. S. for the blood, I can safely say that it beats anything I have used to cleanse the blood and make a new being out of a person.'"

Mr. M. S. Hamlin, Winston, N. C., writes: 'I use it every spring. It always builds me up, giving me appetite and digestion, and enabling me to stand the long, trying, enervating hot summer days. On using it I soon become strong of body and easy of mind.'"

## A MIRACULOUS ESCAPE.

FRIGHTFUL EXPLOSION UNDER A CHICAGO STORE.

Caused By Foolishly Going Near a Leaking Gas Main With a Lighted Candle—The Building Wrecked—Many Injured, But Strange to Say None Seriously.

CHICAGO, April 28.—An explosion that pitched seventy people into the air, throwing one man fifty feet, wrecked sixteen of plate glass windows, ruined \$35 worth of clothing and caused a stampede of hundreds of people from the upper stories of the tall buildings occurred in a basement at State and Jackson streets Thursday evening. Queerly enough no one was killed or even fatally injured.

A couple of workmen for the Houston-Thompson Electric Light company were attempting to drill a hole across under the street for a conduit, when a gas main was inadvertently punctured. One of the pair lit a candle to see what was the matter with the drill. The next instant the two workmen, the seventy odd clerks and customers in the Bell clothing store, on the first floor, the massive plate glass front, the heaps of ready-made apparel, were mixed up in an almost inextinguishable mass with broken timbers and falling plaster, while people for blocks around thought an earthquake had occurred, and rushed pell-mell into the street.

George Dunlop, a floor walker, who was standing on a hot-air register in the floor, selling a suit of clothes to a lady and a little boy, went flying obliquely to the ceiling, and landed on an overturned table fifty feet distant. The woman and child were thrown off their feet, but were virtually uninjured, and quickly made their escape. Dunlop's back was badly wrenched, and it is feared he is hurt internally. Both the workmen, Charles Ash and George St. John, were seriously injured, being fearfully bruised and cut, but neither is in apparent danger of death. The others hurt seriously are Henry Land, T. J. Dungle and E. E. Klienhaus, all employees in the store.

Every person in the establishment at the time was more or less scratched, bruised and bedraggled, but were able to make their way out without assistance. The fire was quickly extinguished by the city department, else results to the victims would have been perhaps something frightful. J. H. Cohn, owner of the Bell store, estimates his loss at \$25,000. It is fully insured, but there is a doubt whether he can collect as the damage in the main was not caused by fire. N. Corwith, owner of the building, has a loss of \$10,000; insured. A curious illustration of the force of the explosion is the fact that few of the fragments of the great windows found were larger than two inches square.

### FIRES.

A Dakota Town Wiped Out—An Illinois Penitentiary Blaze—Elsewhere.

DEADWOOD, Dak., April 28.—Central City, a town of about one thousand inhabitants, two miles above this place, was totally destroyed by fire, Thursday morning. The loss is estimated at from \$150,000 to \$200,000. Insurance light. No lives were lost.

The whole community is homeless and houseless, entire families losing their all and escaping only with their lives. The fire originated in a bakery. The entire fire department of Deadwood and Lead City were promptly on hand, but a failure of the water supply rendered their assistance useless. The town was in ashes within two hours after the commencement of the fire. All the necessary relief is being sent by the adjoining towns.

### In the Chester Penitentiary.

CHESTER, Ill., April 28.—A destructive fire started in the attic of the building occupied by the Western Boot and Shoe Manufacturing company, at the penitentiary yesterday afternoon, and in a short time it was destroyed with its contents—a large plant machinery, stock and manufactured goods. The officers had barely time to get the convicts, 125 of whom were employed by the contractors, out of the building before it was a mass of flames from floor to roof. It cost the state about \$14,000. The loss to the shoe company is \$75,000. It is insured for \$28,000.

The origin of the fire is a mystery. A brick building near by used as a box manufactory by Hoover & Glendon, of Newport, Ky., who are manufacturing ladies shoes at the prison, was also burned, with a loss to them of about \$1,000.

### Quadruple Holocaust.

BLACKVILLE, S. C., April 28.—The dwelling house of Louis Stroman, near Springfield, on the Barnwell & Alston railroad, was burned at 4 o'clock Thursday morning. Four of Stroman's children, two boys and two girls, who were sleeping upstairs, perished in the flames. Stroman's eldest son was fearfully burned while frantically endeavoring to rescue his brothers and sisters, and will probably die.

### Lumber Mills.

FORT MADISON, Iowa, April 28.—The Fort Madison Lumber company's saw mills caught fire supposedly from a spark from a passing Chicago, Burlington & Quincy locomotive Thursday, and were totally destroyed. The loss is estimated at \$40,000; insurance, \$15,000. The mills had not yet started for the season's run.

### Half a Pennsylvania Town Burned.

GOLDSBORO, Pa., April 28.—Fire this morning destroyed half of the town. One entire block of the best houses and stores was ruined. Several narrow escapes for life added to the excitement. One man was severely injured. The loss is about \$40,000; partially insured.

### Snow Sheds.

BUTTE, Mont., April 28.—A passing engine yesterday set fire to the snow sheds near Mullan tunnel in the main range Rocky mountain crossing of the Northern Pacific. Over one thousand feet were burned. Trains will be delayed several days.

### A Boston Tenement House.

BOSTON, April 28.—A two story wooden tenement house, No. 278 Summer street, East Boston, was burned last night. Loss \$20,000; fully insured, and Mrs. Mary Murphy and Mrs. Ellen Murphy were severely burned in descending the stairs.

### All a Mistake.

BOSTON, April 28.—Mr. John Boyle O'Reilly, editor of the Pilot, has received from his special correspondent at Rome, a cablegram stating that the reports sent forth from there through agents of the London Chronicle, that the pope has condemned the plan of campaign, are false. The principal of the plan of campaign remains untouched. Certain abuses connected with the administration of the plan are, however, prohibited.

Its superior excellence proven in millions of homes for more than a quarter of a century. It is used by the United States Government. Endorsed by the heads of the great Universities as the Strongest, Purest and most Healthful. Dr. Price's CREAM BAKING POWDER does not contain Ammonia, Lime or Alum. Sold only in cans.
